

Grand View "Gator Gourmands" Jr. Chefs

Grand View, GrowingGreat, and Manhattan House Partner!

Over the last 17 years students in Manhattan Beach elementary schools have been receiving nutrition and garden education thanks to the support of MBUSD and the wonderful parent docents. We are excited to partner with Celebrity Chef Diana Stavaridis and Manhattan House as we invite GrowingGreat students to create a nutritious, garden-inspired menu item for the restaurant and learn about the world of culinary arts.

GrowingGreat's mission is to empower every child to grow up healthy through science-based garden and nutrition education. (growinggreat.org)

Burrata Ravioli - Lemon Tree Mascarpone, Nasturtium Pesto Offered @Manhattan House

GrowingGreat Jr. Chefs @ Manhattan House

Grand View Elementary has kicked off the new year participating in the GrowingGreat/Manhattan House Jr. Chefs program. Chef Diana from Manhattan House Restaurant, 5th grade GG Jr. Chefs along with GrowingGreat Lead Garden Docents, have been working together to create a garden-inspired dish to be featured on the Manhattan House menu for the entire month of FEBRUARY. The GrandView "Gator Gourmands" discussed the many different types of meals they like to prepare with their families at home and meals that they feel would be enjoyed while dining at Manhattan House. Healthy and seasonal! Dine at Manhattan House in FEBRUARY and look for the yummy dish created by Grand View Gator Gourmands Jr. Chefs. Check out the new mural at Manhattan House inspired by this program!
