

DIY CARDBOARD TV

Oh No!! The electricity in the entire City of Manhattan Beach just went out.
What are we going to do without television?

Try making your own television.

Write a story.

Draw it out on an extra long piece of paper (you may need to tape sheets together) and color it in.

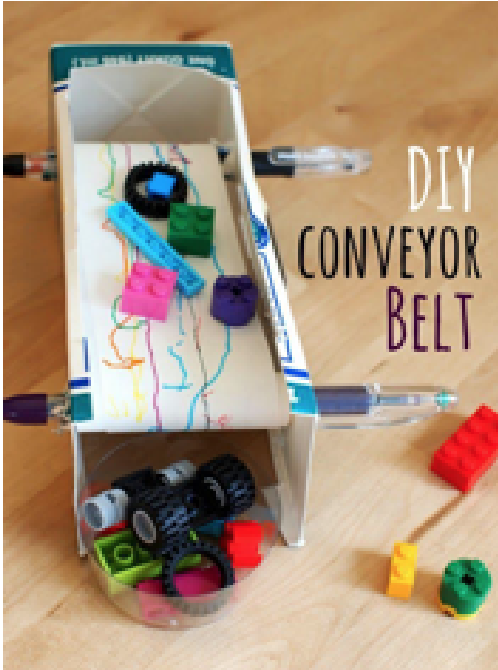

Make a conveyer belt with paper towel or TP tubes.
Insert tubes in 4 holes in a box.
Wrap your drawing tightly around the tubes.

Kick your feet up on the sofa and watch some *tube*.

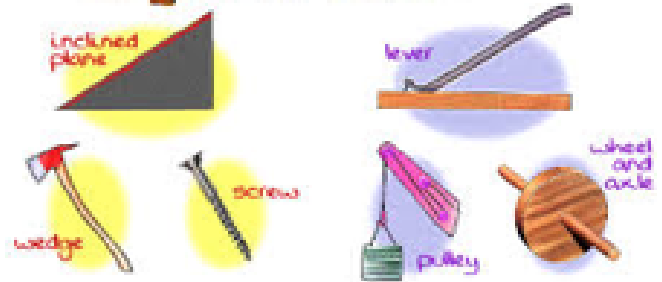

Material suggestions;
shoe box, milk carton, amazon box
TP or paper towel tubes, skewers, dowels
long sheet of paper

Want to try to make a CONVEYOR BELT?

Simple Machines

Simple Machines in a conveyor belts are;

1.incline plane

2.pulley

3.wheel & axle
