

Recently, one of the most powerful storms on record decimated the Philippines, affecting nearly 9 million people. To aid in the relief effort, Meadows Elementary has asked us to join them either through warm weather clothing donations or monetary donations, which will be used to fund clean drinking water. If you are interested in contributing, please see details below for more information. For more info please contact Lizzie Fong at elizabethcannomfong@gmail.com.

Send help by Tuesday, 11/19

Drop off adult & children's warm weather clothing, underwear, shoes, towels and bed sheets in bins around GV. Donations of canned goods and toiletries are also needed. Drop off a check made out to Meadows PTA in the GV PTA Workroom. Please indicate on the check if you would like a receipt for tax purposes.

Why Meadows Elementary?

Meadows parents, Cora and Rod Cruz, have been involved on an ongoing basis with support for the Philippines, most recently with medical missions. Cora works for Global Health Force (GHF), a UCLA group which provides medical care, health education and disease prevention to the poor and neglected in the US and abroad. She and her husband Rod, in the past a doctor in the Philippines, are volunteers with GHF and regularly go on medical missions to the Philippines. They are very well connected there, and can get our donations right where they are needed.
