Wishing You A Safe and Happy Summer!

Program Notes

In his younger years, Professor Zeppel was an international rock star - that was until he lost his band in a freak accident. From that day on, his home has been silenced of music and the Professor has kept to himself - not socializing with any of the townspeople. However, a musical memory has surfaced and is driving the Professor to create the supreme rock band of all time. In order to do so, Professor Zeppel calls for some assistance.

A group of interns have just arrived in town. They make it to Abbey Laboratories where Professor Zeppel shows them to his study. Eager to help, the interns work tirelessly, logging and categorizing megabytes of data. But they soon realize the task is more difficult than first thought. Will they be able to determine the best musical group? Will music be heard in the Abbey again? Will the townspeople welcome Professor Zeppel back into their community?

Maybe music does have the power to bring people together. It certainly does in Sound Arts!

Sharing music with Grand View students has always been something I look forward to every rehearsal. However, sharing a little bit of "rock and roll" has been a blast!

Who would have guessed that elementary students would be able to sing Van Halen's "Jump," in three part harmony, - - or that 94 students could move together dancing Michael Jackson's "Thriller" - - - or that students would learn Led Zeppelin's "Kashmir?" These students have done all this and more. Bravo! You are all rock stars!

Grand View Sound Arts reflects the philosophy of giving every child the opportunity to experience music and performance in a fun-filled learning environment. Musicals are specifically designed around the National State Standards for Arts Education and the California State Standards and Frameworks.

It never ceases to amaze me the levels of success students are able to achieve - and after just one hour per week! Each student should feel very proud of his/her accomplishments and growth!

Many, Many, heartfelt "thanks" to the Sound Arts Parents and Families who have not only helped us "rock out" but also for their constant love, support, and encouragement to these fine young performers! Thank you for your help with costumes and the many other things you have offered to allow rehearsals to flow smoothly.

Your children are truly a gift and I thank you for allowing me to spend some musical time with them. The investment of time, effort, and energy, will provide life-long dividends to the young people!
